What we did.

Story Carding with the client

Reconcile local changes on staging and production

Remove hard coded aspects of the system

Decrease Complexity of the system

Friday, October 9, 2009

Client

Me: Huhh?

RAILS UNDERGROUND

Patterns for success.. we haz them at hashrocket

SUCCESS

Wisdom

Teach your client the principals of agile

Make your client be onsite as long as possible

Get access to your clients clients

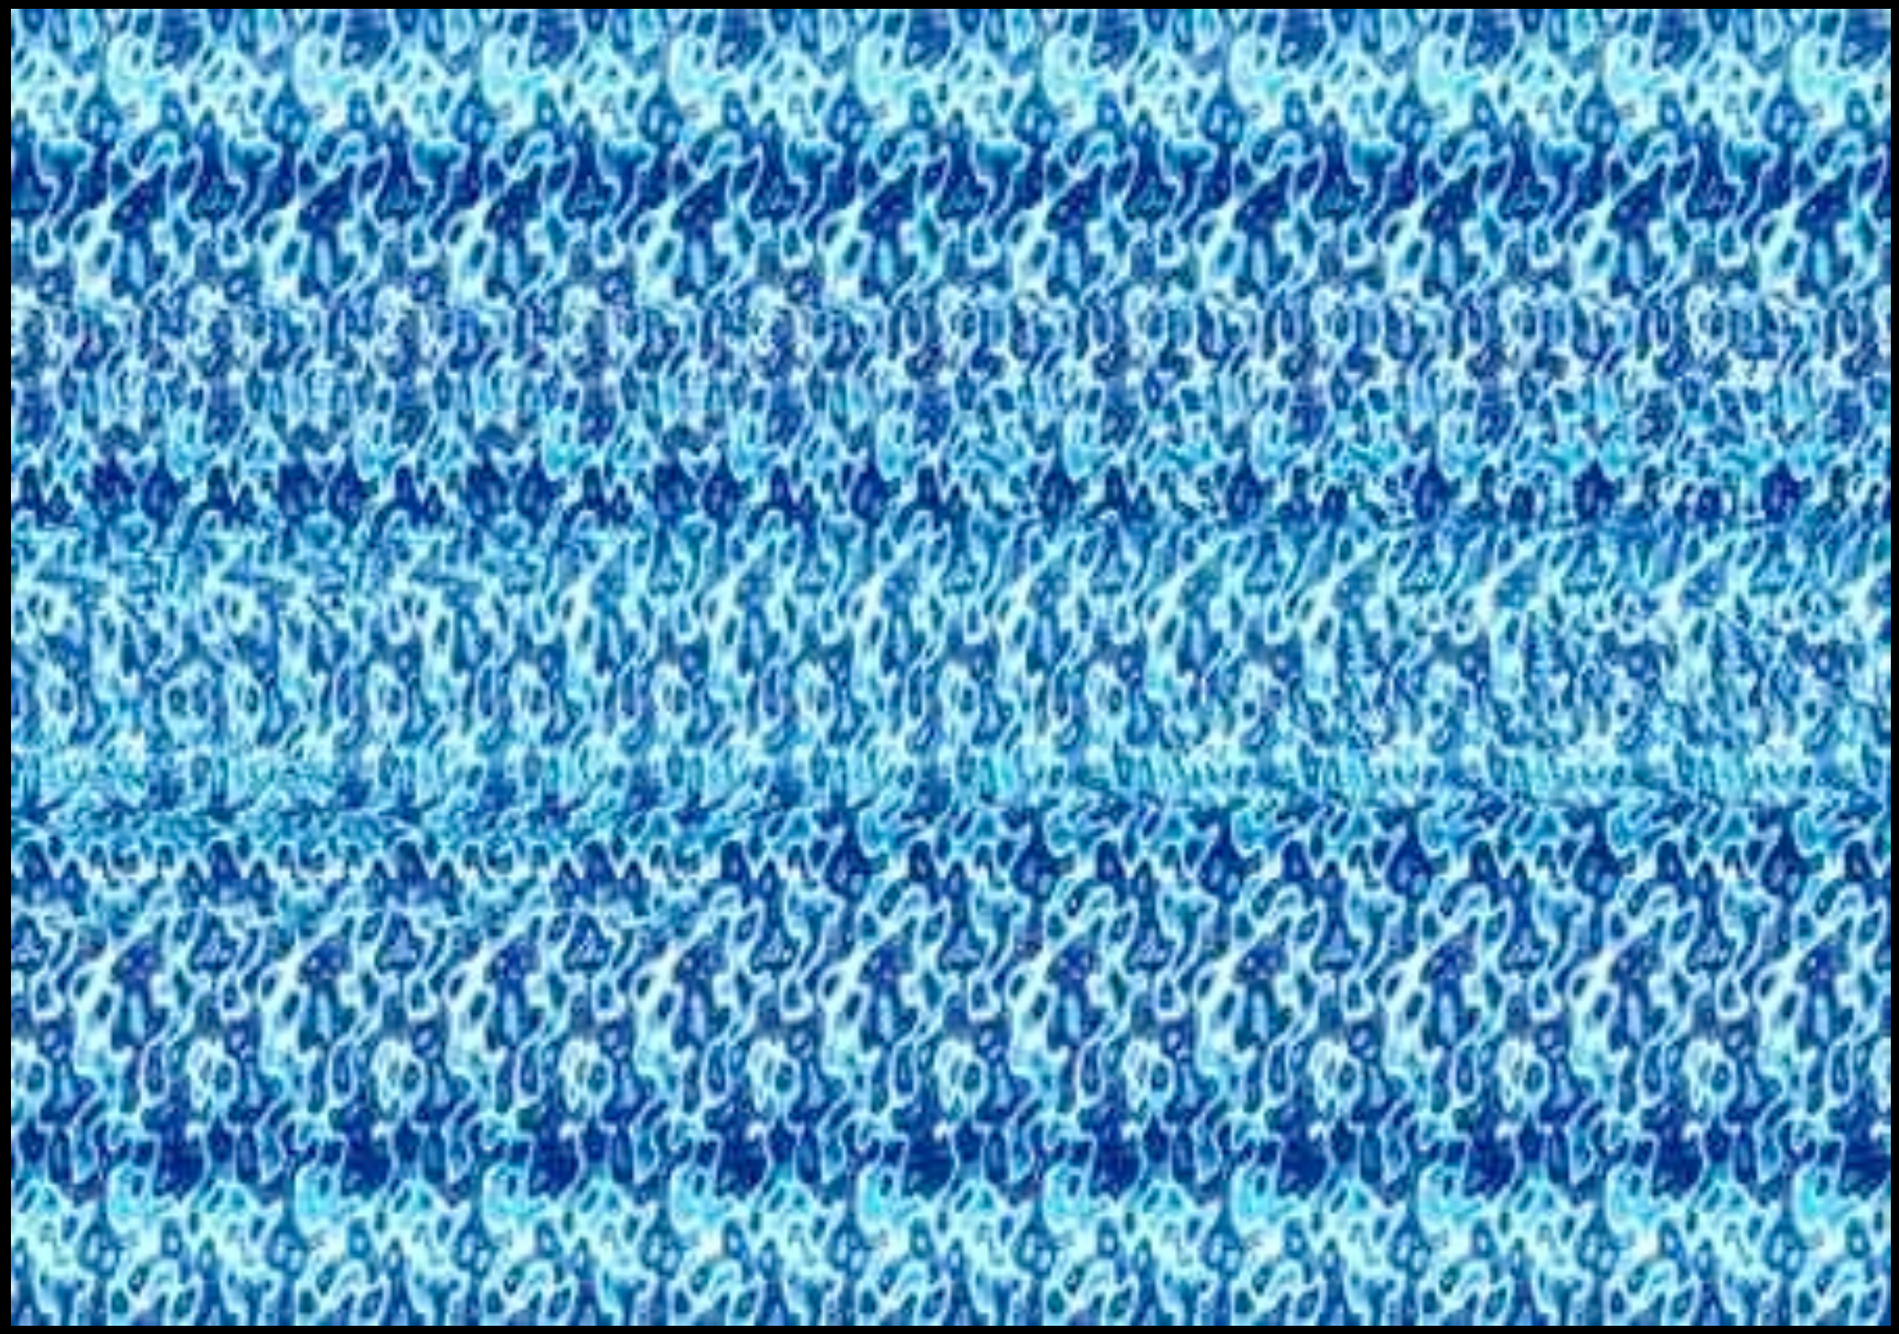
Allow ramp up time

Daily Standup Meetings (Communicate All the Fing Time)

Pair All The Fing Time

Allow velocity to emerge

Stay Focused



Refactor as you go

Use Git

Get the easy stuff

Delete Commented Code

Fix the formatting

Replace Custom Code with the built in stuff

Deploy Early and Often

Convince your client to go with the experts

Use your client

All of these work TOGETHER to create a happy client.

And everyone lived happily ever after.
