JRuby

From Zero to Awesome

My Story

JRuby's Story

# Why JRuby?

Too Many Reasons

- JVM = ~500 man-years

- Multiple awesome GCs

- Parallel native threads

- No segfaults

- Excellent performance

- Easier deployment

- Dozens of platforms

- Thousands of libraries

- Millions of Java devs

- JVM dynlang support

- Other JVM langs

- "It's Just Ruby"

The JRuby Show

Sprint!

- Calling Java libraries

- Rails deploy/launch

- JRuby benchmarks

- Native threading

- 1.9 support

- Android development

- Game development

- Monitoring JRuby process

- Duby, a static-typed Ruby-like JVM lang

- Ruby classes to Java

- Hibernate for Ruby
